THE 360° VIEW OF YOUR MACHINES

DIGITAL FLEET MANAGEMENT SYSTEM

WHAT IS EVI?

GET MORE OUT OF YOUR MACHINES!

Our digital fleet management system, developed exclusively for the European market, allows you to access all the important information you need about your machines at any time and from anywhere.

Making your fleet management simpler helps you to make more informed decisions, reduces your costs and maximises machine uptime.

It also offers greater peace of mind, with useful safety and security features that let you know exactly where your machines are and when they're in operation.

HOW DOES EVI WORK?

OUR TOOL FOR GREATER TRANSPARENCY

SANY EVI is designed to provide you with a detailed overview and maximum control of your machine fleet.

You can keep track of your machines location, access all essential machine data such as performance parameters, service requirements and operating status in real time.

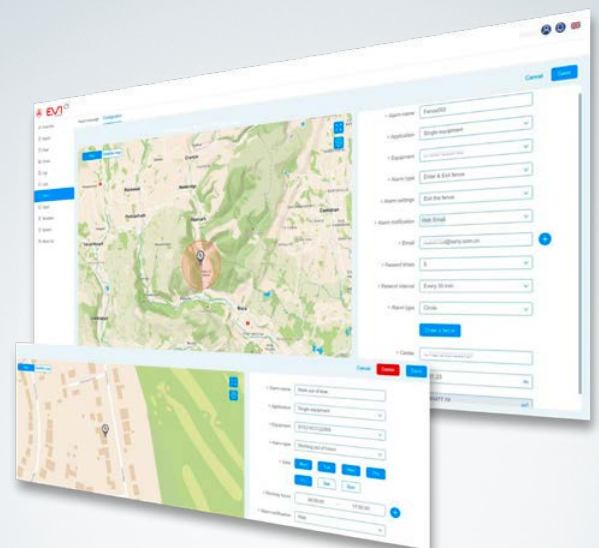

Monitor and control several machines simultaneously using a personalised dashboard to suit your requirements, ensuring your operation runs as smoothly and efficiently as possible.

FEATURES IN DETAIL

SIMPLE TO OPERATE – FULL CONTROL

- + Maximum control over your machine fleet
- + Set operating hours and create security geofences
- + Greater visibility of routine checks and machine health
- + Real-time instant communications across multiple channels
- + Operating report analysis
- + Customer account management

HIGHLIGHTS **SANY E.VISION**

MAJOR BENEFITS MAKE ALL THE DIFFERENCE

EVI offers everything you'd expect from a modern digital fleet management system packed with useful features to help you work smarter and maximise uptime. **More control, more transparency, more security.**

OPTIMISED FLEET MANAGEMENT

GPS tracking allows you to view the location and operating status of individual machines or your whole fleet on a personalised dashboard helping you to work smarter and increase revenue.

MAXIMUM UPTIME

Stay one step ahead with real-time alerts relating to machine health thanks to remote fault diagnostics and maintenance scheduling that can help extend the lives of your machines.

PRODUCTIVITY BOOST

Use real-time data to track daily operating performance relating to routine checks, working time, idle time and fuel consumption to ensure productivity is maximised and environmental impact is reduced.

MORE SECURITY FOR YOUR INVESTMENT

Keep your machine fleet safe and secure with geofence alarms that notify you every time a machine moves out of its normal operating area. You can also set alerts to highlight if your machines are used outside of their set operational hours for additional peace of mind.

TOP CUSTOMER SATISFACTION

EVI allows you to have visibility of one single machine or a whole fleet from a single dashboard. This helps to manage the projects at hand in the most efficient way, to meet your needs and those of your customer.

FULLY COMPLIANT

EVI is a tool developed specifically for European customers in Europe – and is compliant with the General Data Protection Regulation (GDPR), with all machine data being processed via a server in Germany. Our system also works in accordance with ISO-15143 therefore it can integrate with 3rd party telematics systems.

"WE'RE REALLY PLEASED WITH SANY EVI, AND IN FACT WE CHECK IT EVERY DAY. THE REAL-TIME VIEW IN PARTICULAR HELPS US TO KEEP TRACK OF PROGRESS ON OUR CONSTRUCTION SITES AT ALL TIMES. IT'S FANTASTIC!"

INTERESTED IN EVI?

So get in touch with us. We'll show you how EVI can provide a full overview of your machine fleet. You can also register for EVI with your local SANY dealer.
